THE VENUE IN THE HEART OF BERLIN

Your wedding, event or private celebration, product presentations, film productions and much more await you in a historic setting.

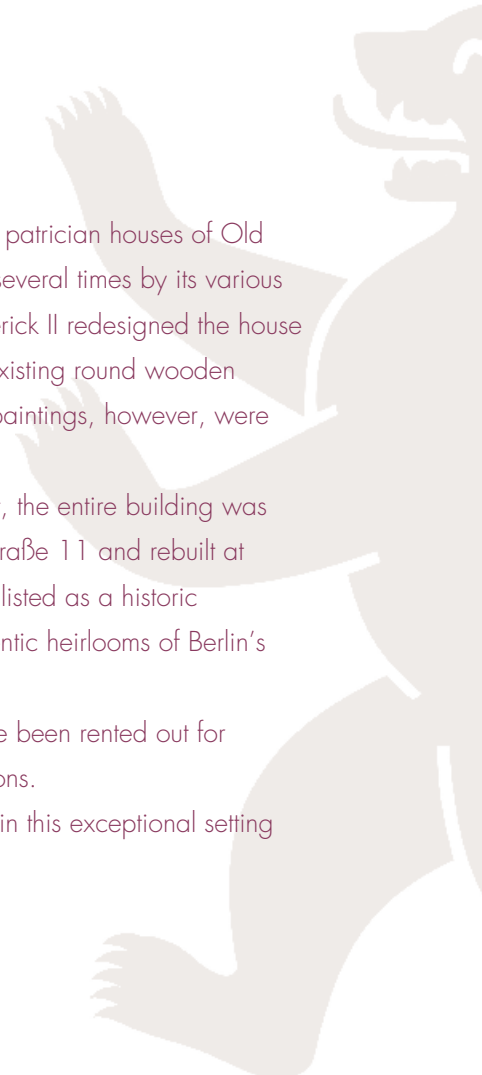

Historic

The Ermelerhaus is one of the few remaining patrician houses of Old Berlin. Since the 1720s, it has been rebuilt several times by its various owners. In 1760, the army supplier of Frederick II redesigned the house in the Rococo style and complemented the existing round wooden staircase with an iron, gilded banister. The paintings, however, were never altered.

In 1966/1967, under the GDR government, the entire building was dismantled at its original location in Breite Straße 11 and rebuilt at Märkisches Ufer. To this day, the building is listed as a historic monument and remains one of the few authentic heirlooms of Berlin's history.

The prestigious and historic rooms have since been rented out for celebrations, conferences, and film productions.

Plan your next event or product presentation in this exceptional setting and let yourself be inspired.
