# Philosophy of Balance

*Our inspiration is a return to harmony and an inner consensus on our two natures and needs.*

*On the one hand, it is Salt as a symbol of purification of the body and mind, detoxification, bath, and spirituality.*

*On the other hand, Lava symbolizes regeneration, sensuality, sexuality, awareness, and self-acceptance.*

*Our original rituals are a journey we will take you on:  
SAL – it will cleanse and prepare you for the journey  
and stimulate your imagination.*

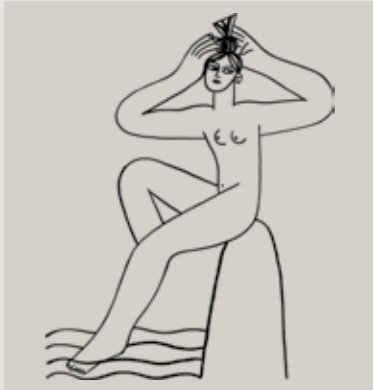

*LAVA – warms up, gives energy, and satisfies the senses.  
You will find harmony in the WATSU ritual, through which  
a guide-therapist will guide you. You will feel the healing power  
of water and the self-healing power of your own body.*

*We also believe in the therapeutic power of superior design  
and art that surrounds us.*

*Our interiors are to be a soothing oasis,  
and treatments an exciting journey.*

*We believe in the power of sound and smell.  
Our philosophy is to find a balance between what  
is “outside” and what is “inside”.*

*You cannot escape, but you can rest,  
give yourself time... and pleasure.*

# Sař

*Begin your journey to inner harmony by cleansing your body and mind. The original rituals of the SAL were created to prepare your body for the further journey.*
