

## RULES TO STAY WITH YOUR PET IN OUR HOTEL

We love to welcome you with your pet, but we remind you of the general rules of the hotel:

- Dogs must have a microchip and vaccination card up to date and you will need to present this on your arrival.
- Within the entire hotel grounds there is no place for your pet to solve their small and large needs, we have some lovely walks around the Resort that will be great. Remember to take bags with you and leave no memory.
- They have to wear a collar and be tied in all common areas of the hotel and on a lead whilst walking around the Hotel. Please note that they are not allowed in any of the restaurants.
- You can enjoy the company of your dog on the terraces of the hotel as long as he/she has a calm behavior and does not pose any discomfort to any other guest.
- The room will not be cleaned while your pet remains indoors. Please advise Reception of a suitable time.
- You must prevent them from barking or disturbing the tranquility of other guests. Avoid leaving him/her alone in the room. It is a new place for them and surely this will affect them. If you leave them alone, stay reachable by phone at all times so that our staff can notify you of any eventuality. Remember to leave contact telephone number at reception.
- Any damage caused by your pet during the stay will be charged on your bill.
  
- **Radisson Blu Resort Lanzarote reserves the right of admission in the event of any breach of these rules. We trust in your responsibility. Enjoy!**
